Overview

Broad Peak, considered as easiest 8000m peak to climb in Pakistan mountain in the world at 8,051m meters, is located in the Karakoram Range in Northeastern Pakistan. The mountain is located along the western Baltoro glacier between K2 and Gasherbrum IV. The first ascent of Broad Peak, in Pakistan's Karakoram mountains, was achieved by a small Austrian expedition in 1957. Broad Peak is the twelfth highest mountain in the world and was the eleventh of world's 14 "eight thousanders".

14Peaks is all set to make your expedition to Broad Peak as seamless as possible. We have gained a reputation for success on 8000m peaks; much is to do with the strength of support we put in place. The Broad Peak expedition starts with your arrival in Islamabad. We will take care of your comfort and safety throughout your time with us. The ideal climbing season for Broad Peak starts in June and ends in August.

Services

INCLUDES

FAQs

Do I need prior climbing experience for Broad Peak?
Yes. Previous high-altitude climbing experience is required. Experience on 6,000m–7,000m peaks and with crampons, ice axe, fixed ropes, and basic mountaineering techniques is highly recommended.

When is the best time to climb Broad Peak?
June to July. This is when the weather and climbing conditions are best.

Do I need previous climbing experience?
Yes. You should have high-altitude climbing experience, ideally on an 8,000m peak. Strong climbers with solid experience on 6,000–7,000m peaks may also be considered.

How difficult is Broad Peak?
It's a serious, demanding climb. Expect extreme cold, high altitude, steep and icy terrain, crevasses, and long summit days — so good fitness and mental toughness matter.

How long does the Broad Peak Expedition take?
The expedition generally takes around 45–55 days, including travel, trekking, acclimatization, climbing rotations, summit attempts, and return. The duration may change due to weather and mountain conditions.

How do we get to Base Camp?
You'll fly into Islamabad, then take a domestic flight to Skardu, drive to Askole, and trek through the Baltoro region to reach Broad Peak Base Camp.

What if the weather is bad and we can't summit?
Your safety always comes first. Our team may delay, adjust, or cancel the summit attempt based on weather, avalanche risk, or route conditions.

What permits are required for Broad Peak?
Broad Peak requires climbing and trekking permits, along with other official permissions and expedition arrangements. Our team handles the required permits and logistics as included in the package.

How do I deal with altitude sickness?
The expedition includes acclimatization rotations and rest days to help your body adjust to high altitude. Our experienced guides monitor climbers' health and provide support in case of altitude-related problems.

How do I book my spot?
Just contact 14 Peaks Expedition directly. We'll walk you through availability, requirements, and the deposit needed to confirm your place.
